

PIG CROP REPORT

Release:
September 21, 1966
12:00 Noon (E. D. T.)

SEPTEMBER 1966

The number of hogs and pigs on farms in the 10 Corn Belt States on September 1, 1966 totaled 46,021,000 head, according to the Crop Reporting Board. This is an increase of 7 percent from the 42,932,000 head a year earlier, but 6 percent less than the 48,923,000 on September 1, 1964. The 10 States included in this report are Ohio, Indiana, Illinois, Wisconsin, Minnesota, Iowa, Missouri, South Dakota, Nebraska, and Kansas.

Inventory numbers on September 1, 1966 were larger than a year earlier in each of the 10 States. Iowa, the leading hog producing State, Illinois, Minnesota, and Nebraska each were up 7 percent; Missouri and Kansas, each up 5 percent; Indiana, up 8 percent; Wisconsin and South Dakota each were up 9 percent and Ohio had the largest increase at 10 percent. September 1 inventories increased seasonally 2 percent from the 45,048,000 head on June 1 this year, compared with a 2 percent increase a year earlier and the average June 1 - September 1 increase of 3 percent. Producers report that death loss for the June 1, 1966 inventories during the June-August period were greater than for the same period a year earlier.

1/ Not available. 2/ Actual number. 3/ Number indicated by breeding intentions report. 4/ December preceding year.

The number of hogs and pigs on farms September 1, 1966 kept for breeding in the 10 States totaled 6,236,000 head. This is 4 percent more than the 5,977,000 head of breeding stock on hand a year earlier. Other hogs and pigs on farms, excluding those kept for breeding, totaled 39,785,000 head, 8 percent more than the 36,955,000 head on September 1, 1965. There were more other hogs and pigs in each weight group than a year earlier. By weight groups, the number and the percentage increase from the previous year were: under 60 pounds, 13,570,000 head, 8 percent; 60-119 pounds, 10,871,000 head, 9 percent; 120-179 pounds, 9,462,000 head, 9 percent; 180-219 pounds 4,945,000 head, 4 percent; and 220 pounds and over 937,000 head, 1 percent.

JUNE-AUGUST PIG CROP

The June-August 1966 pig crop in the 10 States totaled 15,534,000 head, 7 percent more than the June-August 1965 pig crop of 14,483,000 head. This is a result of the increase of 8 percent in the number of sows farrowed. A decrease of about 1 percent in the average number of pigs per litter occurred. The number of sows farrowed was 2,159,000 head compared with 2,000,000 a year earlier. Each of the 10 States showed an increase in the number of sows farrowing ranging from 2 percent in Indiana to 14 percent in Wisconsin. On June 1, 1966 farmers in the 10 States reported intentions to increase farrowings 9 percent during the past quarter. The number of sows farrowed during June 1966 was 735,000 head, 3 percent more than the number farrowed in June a year earlier. July farrowings, at 670,000 head, were 17 percent more than July 1965, August farrowings at 754,000 head, 5 percent above August 1965.

SEPTEMBER-NOVEMBER INTENTIONS

Sows bred and intended for farrowing during the September, October, November quarter totaled 2,078,000 head, 6 percent more than a year earlier. All States indicated an increase in farrowing intentions compared with a year earlier. Increases ranged from 2 percent in Wisconsin to 10 percent in Missouri. Expected farrowings by months are: September, 1,050,000 sows, 2 percent more than the number farrowed a year earlier; October, 646,000 sows, up 8 percent and November 382,000 sows, up 16 percent. The September 1 intentions for the September-November quarter are 1 percentage point less than the intentions reported for this period on June 1, 1966.

DECEMBER 1966 - FEBRUARY 1967 INTENTIONS

Breeding intentions are for 1,734,000 sows to farrow during the December 1966-February 1967 quarter, 6 percent above the same quarter a year earlier. South Dakota expects no change from a year earlier. All other States expect an increase in farrowings ranging from 2 percent in Kansas to 8 percent in Illinois and Nebraska.
